A: When my heart matches God's heart I am ready to do good things.

Memory Verse: Titus 3:1, "Be ready to do what is good."

Family Activities

Family Declarations:

Write out two or three declarations for the week:

(Samples)

I declare that God is mighty and that he is training me to do great things.

I declare that God will strengthen me.

I declare I am ready to do what is good.

I declare that God can do great things through me.

Family Soaking Time:

The scriptures tell us in John 10:27 that, “my sheep hear my voice” and Psalm 46:10 says, “Be still and know that I am God”. Soaking simply means to be still and quiet before the Lord, and to take time to wait in the stillness to hear His voice and to feel his heart towards us. As you enter into a soaking time with your kids put on some soft worship music encourage them to ask God these two questions. When you are done make sure you journal what they have heard God say to them.

God show me how much you love me?

God show me how you can use my life?

Family Game:

This game is similar to the common game, Pin The Tail on The Donkey. Take a large piece of paper and have the kids draw a picture of Goliath from his torso to the top of his head. Then hang it on the wall at the appropriate height for the kids. Have the kids cut out shapes of rocks out of paper. Attach a piece of tape to the back of the pieces of paper. Find something around the house that you can use as a blindfold. Put the blindfold on the child. Spin the child around three times and then give them a rock to attach to the picture of Goliath. See who can get their stones closest to Goliath’s forehead.

Family Activity:

Explore how tall Goliath was. The Bible tells us he was over 9 feet tall and most reports say he was 9’9” tall. You can use large pieces of paper or cardboard and make a cut out of how big Goliath was. You can also use a tape measure and a piece of tape or rope to measure out on the floor how tall he was. Once you make the cut-out or measurement take your picture next to Goliath to see how tall you are next to him. I wonder how David felt next to Goliath?

Family Activity: (for those with large backyards 😊)

Here is a YouTube video on how to make a sling. I suggest using a small soft ball in place of stones. After you have made the sling, set up some targets and do some training like David did.
